

# Program Installation Help

## 1. Program Installation:

### A. Windows XP

To install this program, double click on the “**setup.exe**” file contained in the downloaded zip file.

### B. Windows Vista

Vista users must carefully follow the instructions below. Failure to follow the procedure may result in problems with the reports and the check viewing and printing features. To install “Payroll SB”:

- 1) Click **Start** and then click **Control Panel**
- 2) From the **Control Panel**, click “**User Accounts**”
- 3) Click the option titled “**Turn User Account Control on or off**”.
- 4) *Uncheck* the box on this form to “**Turn Off**” the User Account Control (UAC).
- 5) Restart the computer.
- 6) Install Payroll SB. To install this program, double click on the “**setup.exe**” file contained in the downloaded zip file.
- 7) From the **Control Panel**, click “**User Accounts**”
- 8) Click the option titled “**Turn User Account Control on or off**”.
- 9) *Check* the box on this form to “**Turn On**” the User Account Control (UAC).
- 10) Restart the Computer.
- 11) Begin using Payroll SB.

## 2. DotNetFramework Installation:

If the program fails to install, please try installing the Microsoft dotnetframework v1.1 using the instructions provided below:

- A. Download the dotnetFramework using the link provided below.

Link: [http://gordosoftware.com/ProdSales/Software/dotnetfx\\_v1.1.exe](http://gordosoftware.com/ProdSales/Software/dotnetfx_v1.1.exe)

- B. Install the dotnetFramework by double clicking on the downloaded file “**dotnetfx(v1.1).exe**”

C. Install the software program by double click on the **setup.exe** file.
